AMAZING!!!!	11th
awsome program!!!	11th
I enjoyed the one on one time. I have visited other tutor sites where they give you the answer right off the bat. I think it is better if the tutor first asks you for ideas on how to do the problem or answer the question. this is a very helpful tool	11th
I like that when I asked my tutor a question, she asked me what I thought. It really made me think and form my own ideas.	11th
I like the way homework mt helps you with math and science	11th
if i am having a hard time in a math lesson, this service is especially helpful! it helps me take the time to completely understand what i am doing. by having someone be there to walk through each step, is very helpful. in high school teachers do not have time to help every student that has a problem, so it is nice to know that i can count on this service to help me get a better grasp on what i am learning! thank you (:	11th
IT WAS SUPERLY DUPERLY AMAZINGLY AWESOME!!!! It made that little lightbulb go off in my head. =)	11th
Thanks again!!!	11th

The tutor not only helped me answer my questions, but helped dig deep to further understand the story	11th
This is a great program! i just wish i had heard about it sooner, i suggest maybe advertsing this so other kids with similar struggles like me will no there is free discreet/private one-on-one help for basically any subject. I plan on using this often now. Thank you everyone so much!	11th
This is an awesome service!	11th
this tutor site has greatly helped me in math class and gives me a better understanding of how to do certain problems! i love it!	11th
This was very Helpful!	11th
My tutor carefully explained the calculations and work so I could understand it. It helped a lot!	12th

Okay so this was my first time ever using this thing. and it is amazing for me. i wish i would of known about this sooner. i think the schools should tell us about this. because i just got the best help ever and she explained to me. she walked threw the whole problem with me. it would be kinda cool if you could be face to face with them tho. so you could actually talk if you had a webcam and microphone it would prolly go faster. but other then that this is the best thing i have found out there to use. thank you so much for offering this service	12th
Scott R was really helpful in explaining things and made sure I understood before moving on with the problem. I really appreciated his help and I'm very glad this service is offered	12th
thank you for not charging... the extra help is much appreciated	12th
The help was exactly what I needed. Perfect amount of instruction and letting me figure it out.	12th
The whiteboard freezes up alot!	12th
This helps me a lot as a student because I struggle with school work and my grade were never all that great no matter how hard I worked or asked for help. This is another resource that I will be using a lot more often when I am not able to ask a teacher.	12th
